| The course ... | 0 | 1 | 2 | 3 | 4 | 5 | |
|---|---|---|---|---|---|---|---|
| was too easy | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | too hard |
| was too short | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | was too long |
| didn't cover relevant material | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | covered relevant material |
| Will be not useful to me in research and/or employment | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | will be useful to me in research and/or employment |

Do you think a course like this should be available to all PhD students?

Do you think Python was a good choice of language or would you rather another one (please suggest)?

Please add any topics you think should have been covered or that you would like to be covered in a future course.

Any other thoughts or ideas?
